

Technical drawing of a vertical pump assembly. The drawing shows a front view of the pump with various dimensions and labels. The main dimensions are: overall width 378, overall height 498, and a central vertical section with a width of 320. The pump has a cylindrical upper section and a lower section with a circular base. The base has a diameter of $\phi 100$ and a central hole with a diameter of $\phi 175$. The pump is mounted on a base with four mounting holes, labeled $4 - \phi 25$. The pump has a vertical shaft with a diameter of $\phi 19$ and a flange with eight mounting holes, labeled $8 - \phi 19$. The pump has a connection port on the left side, labeled $G3/4$, and a mounting bracket with a height of 13. The pump has a central vertical section with a width of 320 and a central hole with a diameter of $\phi 175$.
