

Technical drawing of the H-1000A water pump assembly, showing dimensions and specifications.

Dimensions (mm):

- Overall height: 1590
- Height to top of pump housing: 1372
- Height to top of motor housing: 1124
- Height to top of pump housing (alternative): 668
- Height to top of motor housing (alternative): 568
- Height to top of motor housing (alternative): 584
- Height to top of motor housing (alternative): 614
- Height to top of motor housing (alternative): 1135
- Height to top of motor housing (alternative): 1217
- Height to top of motor housing (alternative): 260
- Height to top of motor housing (alternative): 33
- Height to top of motor housing (alternative): 145
- Height to top of motor housing (alternative): 425
- Height to top of motor housing (alternative): 381
- Height to top of motor housing (alternative): 275
- Height to top of motor housing (alternative): 1000
- Height to top of motor housing (alternative): 1550
- Height to top of motor housing (alternative): 1691

Specifications:

- 4-φ19 (基準ボルトM16X200)
- Rp3/4 (給水口)
- Rc2 (任意試取用配管)
