

This technical drawing shows a side elevation of a vertical industrial machine. The machine is composed of several main sections. At the top, there is a large rectangular housing with a central square opening. Below this, a vertical shaft or column extends downwards, featuring various valves, fittings, and a small circular component. The base of the machine is complex, with multiple horizontal sections and a large circular component on the right side, possibly a flywheel or a large valve. The drawing is a line drawing with no shading, showing the mechanical details of the machine.
