

Technical drawing of a vertical steam boiler. The drawing includes the following labels and dimensions:

- Dimensions:**
 - 130 (top width)
 - 78 (top flange width)
 - 245 (height of the upper section)
- Labels:**
 - 140 (1/2") (pointing to a bolt on the upper flange)
 - 4-1/2" (1/2") (pointing to a valve or fitting on the right side)
 - RC2 1/2" (pointing to a component on the right side)
 - 140 (pointing to a bolt on the lower section)
- Features:**
 - A large circular opening at the bottom, likely for a manhole or access.
 - A vertical pipe or tube running through the center of the boiler.
 - A horizontal pipe or tube on the left side, possibly for water or steam inlet/outlet.
 - A small rectangular component on the right side, possibly a valve or fitting.
 - A small rectangular component on the left side, possibly a valve or fitting.
 - A small rectangular component at the bottom left, possibly a valve or fitting.
