

Technical drawing of a circular mechanical component, likely a flange or end plate, showing dimensions in millimeters. The drawing includes a top view and a side view.

Top View Dimensions:

- Overall diameter: 503
- Inner diameter: 400
- Radius of the inner circle: 190
- Radius of the outer circle: 210
- Distance from the center to the edge of the flange: 210
- Distance from the center to the edge of the flange (inner): 190
- Distance from the center to the edge of the flange (outer): 210
- Distance from the center to the edge of the flange (inner): 190
- Distance from the center to the edge of the flange (outer): 210
- Distance from the center to the edge of the flange (inner): 190
- Distance from the center to the edge of the flange (outer): 210

Side View Dimensions:

- Overall height: 551
- Distance from the top surface to the center of the flange: 22
- Distance from the top surface to the center of the flange: 94
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116
- Distance from the top surface to the center of the flange: 116

Other Features:

- Four mounting holes are shown, each with a diameter of $\varnothing 34.7$.
- The component has a central hole with a diameter of $\varnothing 400$.
- The component has a flange with a thickness of 22 mm.
- The component has a total height of 551 mm.
