

Technical drawing of a circular mechanical part, likely a flange or end plate, shown in a top-down view. The part is circular with a central hole. The drawing includes the following features:

- Central Hole:** A small circle at the center of the part.
- Mounting Features:** Four rectangular mounting tabs are distributed around the perimeter. Each tab has a central hole and a slot. The tabs are located at approximately 90, 180, 270, and 360 degrees.
- Dimension Line:** A dimension line is drawn from the center to the outer edge, labeled $\phi 162.4$, indicating the outer diameter.
- Center Mark:** A small circle at the center of the part, indicating the center of gravity or the center of the hole.
- Reference Markers:** Small circles are placed at the center of each mounting tab.
