

Technical drawing of a vertical mechanical assembly, likely a pump or valve, showing a front view with dimensions. The drawing includes a central vertical shaft with a handle on the left and a circular flange with eight holes. Dimensions include a top flange diameter of 28, a side flange diameter of 65, a distance of 101 from the side flange to the main body, a main body diameter of 175, a distance of 10 from the main body to the bottom flange, and a bottom flange diameter of 100. There are also four holes of diameter 20 on the side flange and eight holes of diameter 19 on the main body.
